Ref. : TD 218 (NGN-GSI)

Source:	Q.15/13 Rapporteur Group (NGN-GSI event, Geneva, 1-11 September 2008)
Title:	Response to the liaison statement from 3GPP SA 3 on media security and request for review on a proposed study item

LIAISON STATEMENT

To:	**3GPP SA3**
Approval:	**Q.15/13 Rapporteur Group meeting**
For:	**Action**
Deadline:	**2 January 2009**

Contact:	Igor Faynberg Alcatel-Lucent USA	Tel: +1 908 582 2626 Fax: +1 908 582 2220 Email: faynberg@alcatel-lucent.com

Question 15/13 thanks 3GPP SA3 for providing constructive comments on the ITU-T draft Recommendation *NGN Security Mechanisms* and suggesting cooperation in consistency of standardization effort based on Common IMS.

In this liaison Q.15/13 1) reports on the disposition of the SA 3 comment and 2) seeks the 3GPP SA3 view on the justification of the proposed new work in Q.15/13.

On the first item, Q.15/13 has found 3GPP SA3 correct in pointing out the discrepancy between Section 5.2 of *NGN Security Mechanisms* and the Common IMS, as long as the *Border Element* can be interpreted to mean *P-CSCF)*. To that end, Q.15/13 decided to remove this clause to ensure consistency of NGN with Common IMS, which is a goal of Q.15/13 work.

On the second item, Q.15/13 has attached two contributions to its recent meeting, which propose a new study item in order to fill what has been noted as apparent gaps in standardization. To facilitate further collaboration between Q.15/13 and 3GPP SA3, Q.15/13 asks 3GPP SA3 to express its view on these matters.

The next meeting of Q.15/13 has been planned for January 12 - 23 2009. Therefore Q.15/13 will much appreciate the response by January 2, the deadline set by ITU-T TSB.
