If TCI present in DCI
No
Yes
If scheduling offset is above threshold
If TCI is activated by MAC CE
No
No
Yes
PDSCH follows beam of CORESET with scheduling PDCCH
PDSCH follows initial SSB beam
If scheduling offset is above threshold
Yes
No
Yes
PDSCH follows beam indicated by TCI state
If CORESET is con-figured
No
Yes
PDSCH follows beam of CORESET with lowest ID in latest slot
PDSCH follows beam of activated TCI with lowest ID
