Re: Tdoc T3-030933 LS on the harmonization of ISIM for 3GPP2

Dear Mr. Barnes,

3GPP2-TSG-C would like to thank you for your timely response regarding our earlier correspondence (T3-030885) on harmonization of the ISIM.

Regarding P-CSCF, although the LS from SA2 (Tdoc S2-040469) indicating that there is no need, from 3GPP's perspective, to have additional requirement, it is crucial for 3GPP2 to have P-CSCF mechanism clearly defined. Therefore, we would like to urge T3 to act on this soon.

3GPP2 IMS does follow the AKA context; however, we have also identified a need to include HTTP Digest on the ISIM document. The attached CR provides the reason and the proposed changes. There are on going activities in TSG-C on defining an R-UIM application for the UICC platform. We will prepare the necessary information to request an AID for the R-UIM application.

Please review the attached CR and again, TSG-C appreciates your timely response concerning this matter.

Regards,

Byung K. (BK) Yi
