Title: Liaison statement to TSG RAN WG3 on the overall delay budget

_____

TSG RAN WG2 would like to thank TSG RAN WG3 for their Liaison Statement on the overall delay budget within the access stratum.
TSG RAN WG2 understood that the figures given in the LS are worst case estimations. Since the overall delay has an impact on the design of the protocols in the scope of TSG RAN WG2, we would be interested in receiving further information on the issue. Information on the typical round trip and End-to-End delay to be expected between UE and the RNC would be most helpful.
