1. Overall Description:

RAN3 thanks CN1 for the LS on "LS on Re-authentication and key set change during inter-system handover" and is pleased to answer the following question.

(CN1 question)

Furthermore it is CN1's understanding of the RANAP specification TS 25.413 that during the inter-system handover the MSC can provide only one key set to the RNC with the RANAP Relocation Request message, and that this is the old key set. Can SA3, RAN2 and RAN 3 confirm this interpretation?

(RAN3 answer)

RAN3 can confirm CN1's understanding that the MSC can provide only one key set to the RNC with the RANAP Relocation Request message. The key set provided in the message will be used by RNC after the handover.

2. Actions:

None

3. Date of Next RAN3 Meetings:

TSG RAN WG3 Meeting #43	16 – 20 Aug 2004, Prague, Czech Republic
TSG RAN WG3 Meeting #44	4 – 8 Oct 2004, Sophia Antipolis, France
