### **1. Overall description:**

The Interface and Architecture (IFA) working group of the ETSI NFV Industry Specification group (ISG) is pleased to provide you with an update on its work programme.

The following deliverables are expected to be published in the June/July 2016 time frame and will be entering a review period in April. Between April and the publication date the documents will not be subject to substantial changes, considering the drafts available in April as stable.

- ETSI GS NFV IFA 007 - Network Functions Virtualisation; Management and Orchestration; Or-Vnfm reference point - Interface and Information Model Specification
- ETSI GS NFV IFA 008 - Network Functions Virtualisation; Management and Orchestration; Ve-Vnfm reference point - Interface and Information Model Specification
- ETSI GS NFV IFA 011 - Network Functions Virtualisation; Management and Orchestration; VNF packaging specification
- ETSI GS NFV IFA 013 - Network Functions Virtualisation; Management and Orchestration; Os-Ma-Nfvo reference point - Interface and Information Model Specification
- ETSI GS NFV IFA 014 - Network Functions Virtualisation; Management and Orchestration; Network Service Templates Specification

Draft deliverables are publically available here: <https://docbox.etsi.org/ISG/NFV/Open/Drafts>

Your comments on these drafts deliverables are welcomed. They can be submitted as attachment to a liaison statement, as a contribution from an ISG member or using the tracker we have setup for that purpose at: [http://forge.etsi.org/mantis/view\\_all\\_bug\\_page.php](http://forge.etsi.org/mantis/view_all_bug_page.php) (Select "NFV specifications" as the Project Name)

### **2. Actions:**

Organizations receiving this Liaison Statement are kindly invited to review the aforementioned draft deliverables and provide any feedback they may have.

### **3. Date of next meetings of the originator:**

ETSI NFV#14 Plenary, 03-05 May 2016, Atlanta, US
