**Subject:** [Draft] Liaison statement on IPR statement in 3GPP specifications  
**To:** PCG

TSG RAN Working Group 4 has started preparing draft specifications as part of its work. Some of these specifications are based on documents prepared in ETSI/SMG 2, and therefore contain the ETSI statement on Intellectual Property Rights. It appears to WG4 that this statement is not applicable to the all of the Organisational Partners.

Working Group 4 therefore requests the PCG to advise it on what statement on Intellectual Property Rights should be included in its draft specifications.
