Title: Text Proposal for TS25.101
Document for: Approval
Agenda Item: 6.2

A. Discussion:

The following text is proposed for inclusion in TS25.101.

B. Text Proposal for "TS25.101 5.2 Frequency bands"

5.2 Frequency bands

UTRA/FDD is designed to operate in the following paired bands;

- (a) 1920 – 1980MHz: Up-link (Mobile transmit, base receive)
2110 – 2170MHz: Down-link (Base transmit, mobile receive)
- (b) 1850 – 1910MHz: Up-link (Mobile transmit, base receive)
1930 – 1990MHz: Down-link (Base transmit, mobile receive)

[Additional allocations in ITU region 2 are FFS]

Deployment in other frequency bands is not precluded.
