

**TSG-RAN Meeting #25
PALM SPRINGS, CA USA, 7 - 9 September 2004**

RP-040385

Agenda Item: 12
Source: Chairman
Title: Draft Scope and Agenda for the RAN long term evolution
Workshop
Document for: Approval

Scope

The goal of the workshop is to investigate what are the main changes that could be brought forward to evolve the UTRA Radio Interface as well as the UTRAN in the medium and long term.

The discussions from the workshop should be used to define further work in RAN and will be elaborated in subsequent TSG RAN meetings.

Agenda

- 1 Introduction of the workshop
- 2 Requirements guiding the evolution
 - 2.1 Operators views
 - 2.2 Manufacturers views
- 3 Proposals for evolution
- 4 Workshop wrap up

Each presentation shall be made available in advance:

Title plus abstract (half a page) to be provided to the chairman at the latest October the 8th

The time allocated for each presentation will depend on the number of contribution and will be communicated after October the 8th. Companies are encourage to provide one input per agenda Item. Rough estimate could be between ¼ of an hour and half an hour for each presentation pending the number of contributions

Full presentation has to be sent on the RAN reflector and the RAN chairman on October the 25th
