

3GPP TSG RAN Rel-19 workshop
Taipei, June 15 - 16, 2023
Agenda Item: 4

RWS-230091

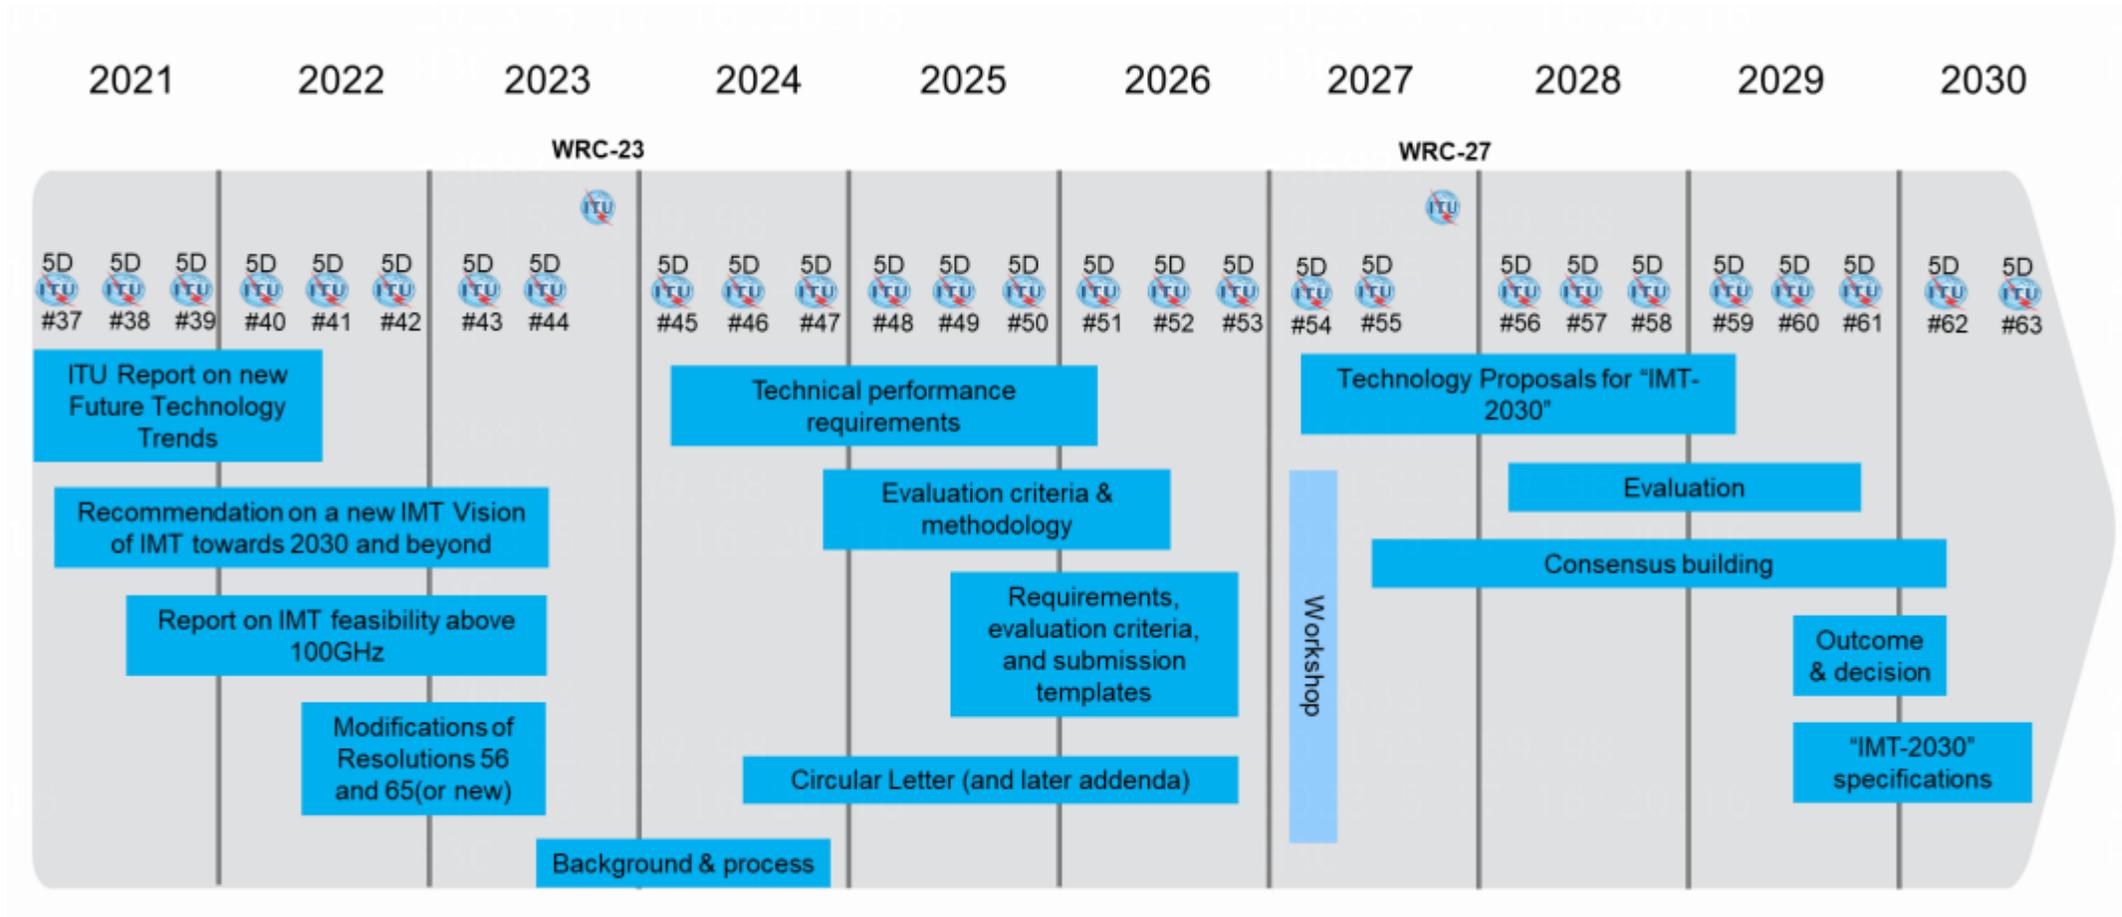

Consideration on Rel-19 Work Scope

New H3C Technologies Co., Limited

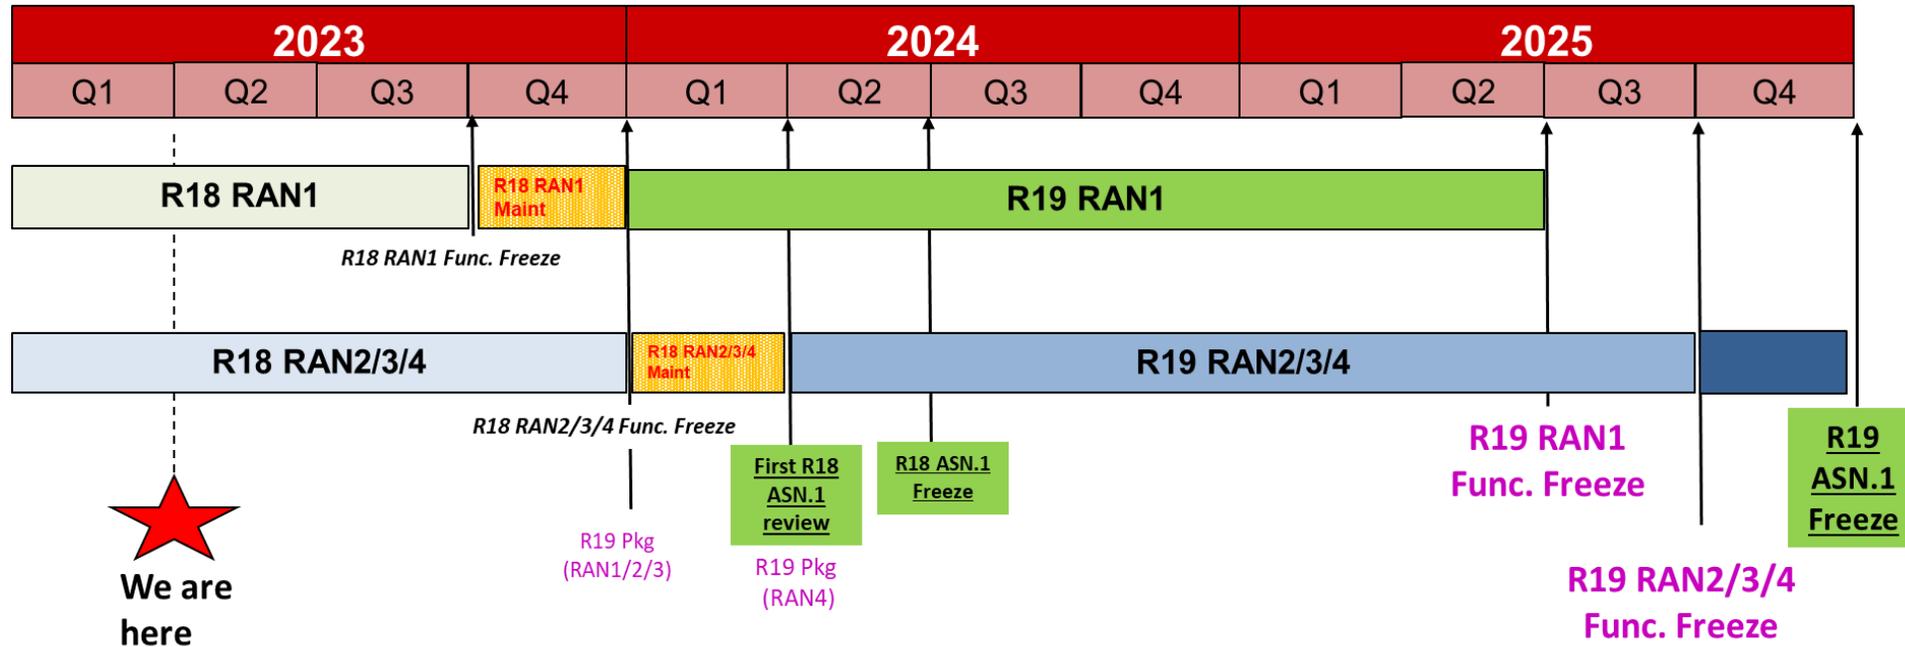

www.h3c.com 

Overview of ITU-R 6G Timeline

- ❑ 6G finalized spec assumed to be around 2H-2029 or 2030 for IMT-2030
- ❑ It is better to kick-off 3GPP 6G SI in Rel-20 in order to align with timeline of IMT-2030 6G proposal

3GPP Standard Rel-19 Timeline

- ❑ Rel-19 takes 18 months to complete all of SI/WIs core function
- ❑ Rel-19 ASN.1 is freeze in Dec.2025

Consideration on Rel-19 Work Scope

□ Motivation

- Rel-19 as the second release of 5G-Advanced is very important to the whole 5G Eco-system
- Target of Rel-19 is commercialization and deployment

□ Proposals

- Rel-19 projects should only focus on 5G-A features related enabling and necessary enhancements
- Any 6G features shouldn't be addressed during Rel-19 except for activities related to 6G channel modeling

A top-down view of a wooden table where several people's hands are stacked in a circle. On the table, there are two laptops, a smartphone, a white mug with a drink, and a coffee cup with a lid. The scene is brightly lit, suggesting an office or meeting environment.

THANKS

A red circular logo containing the white text 'HBC'. The logo is centered on a dark, semi-transparent background that covers the bottom half of the image.
