Feedback Form 1:

1 – ZTE Wistron Telecom AB

A minor comment on R4-2113735: Table 8.1.1-5 may be aligned to other tables, i.e., only one row for the first column indicating the band n262.

2 – Ericsson Limited

Thanks to ZTE spotting this, that's good point.

If there is no other comment on the TP, we propose to fix this issue when adding this TP to the TR (in R4-2113733), without revising this TP then.

R4-2113735 and R4-2114056 are agreeable.

An editorial issue commented by ZTE will be taken care by the TR editor.

R4-2113733 is for email approval as one TP in the thread #307 (BS conformance) is still proposed in the 2nd round.
