Title: **Proposed revised CR cover sheet**

Document for: **information (CN, RAN, T) / approval (SA)**

The changes proposed for the CR cover sheet are shown in the change history table. (Revision marks have not been used, since they would have led to incomprehensible layout.) If approved by SA#16, all 3GPP contributors are requested to use this latest version of the form for all future CRs, and WG Chairman and Secretaries must enforce this.

Change history of the CR form:

When	Who	What	Old version	New version
2001-11-06	JMM	1) Correction of caption to "Clauses affected" entry from "Enter each the number of each clause which contains changes." 2) Correction to the caption to "Consequences if not approved" field from "Enter here the consequences if this CR was to be rejected. It is necessary to complete this section only if the CR is of category "F"-(i.e. essential correction)." 3) Minor editorial clean up.	4	5
2002-01-16	JMM	By request from delegate, add a field for title of spec.	5	6
2002-01-16	JMM	Fix typo	6	6.1
2002-02-20	JMM	Based on version 5, since v6.1 withdrawn due to problems encountered by users. 1) Sets all text to UK English language. 2) Hyperlinks to 3GPP web site corrected. 3) Work Item list included in zip file. 4) Help note on date format included.	5	5.1
2002-06-12	JMM	Changes the titles of the "proposed change affects" boxes. (Request by TSG T modified by SA.) Changes simple "tick box" in "other specs affected" area for separate "yes" and "no" boxes to force deeper reflection (on request from TSG-RAN. Inclusion of Rel-6 option. Help notes improved. Date format specified.	5.1	7

How to create CRs using this form:

Comprehensive information and tips about how to create CRs can be found at <http://www.3gpp.org/specs/CR.htm>. Below is a brief summary:

- 1) Fill out the above form. The symbols above marked # contain pop-up help information about the field that they are closest to.
- 2) Obtain the latest version for the release of the specification to which the change is proposed. Use the MS Word "revision marks" feature (also known as "track changes") when making the changes. All 3GPP specifications can be downloaded from the 3GPP server under <ftp://ftp.3gpp.org/specs/> For the latest version, look for the directory name with the latest date e.g. 2001-03 contains the specifications resulting from the March 2001 TSG meetings.
- 3) With "track changes" disabled, paste the entire CR form (use CTRL-A to select it) into the specification just in front of the clause containing the first piece of changed text. Delete those parts of the specification which are not relevant to the change request.
