### **RE: Common IMS Requirements**

Dear Enrico,

As a follow-up to Puerto Vallarta Workshop and recent decision of SA Plenary regarding the granting of exceptions for Common IMS requirements for Release 8, the following related CRs are being submitted in the SA1 meeting in May 2008.

- (1) Requirements for Emergency Calls for Common IMS, CRs affecting TS 22.101
- (2) Service Requirements for Common IMS, CRs affecting TS 22.228

Upon comparative analysis of Multimedia Priority Service requirements, we determined that the requirements in 3GPP2 specification S.R0117 have very small differences with TS 22.153, so we decided that no CRs would be necessary for this topic.

We look forward to working with you on the development of network policy requirements for Release 9.

Thank you for your kind consideration of this matter. It is our sincere desire that Common IMS efforts continue in 3GPP in a collaborative and productive spirit exhibited in the Puerto Vallarta Workshop.

Regards,

山崎徳和

Nick Yamasaki
