Title: draft TR 23.821 v0.2.0 “Architecture Principles for Release 2000”
Document for: Approval

Introduction

A draft version 0.2.0 of TR 23.821 is provided for approval. The following major modifications have been performed:

1. Definitions added in Ch 3 (tdoc S2-000544)
2. New architecture principles in Ch 5.1 (tdoc S2-000545)
3. Addition of BSS/GERAN ad related reference points in the reference architecture figure (tdoc S2-000549)
4. New note under the reference architecture figure (tdoc S2-000549)
5. Addition of new sections for 4 reference points in Ch 5.4 (tdoc S2-000363)
6. New Ch 9.1 end-to-end QoS negotiation requirements (tdoc S2-000560)
7. Editorial, including deletion of some text in the editor’s note under the reference architecture figure.

The general R00 key issue list (tdoc S2-000279) as well as the R00 QoS key issue list (S2-000562) are also provided for information.

Proposal

It is proposed to approve the provided draft TR 23.821 v0.2.0.
