**1. Overall Description:**

SA5 thanks SA1 for its LS S1-0101241 on Packet Switched Streaming Service and the attachment TS22.233 and would like inform SA1 PPS charging specification was incorporate in our work Plan (S5-010747, S5B010763)

SA5 noted the information provided by attached draft specification, especially clause 7, as it provides a good starting point for SA5 to begin its charging work. However, parameter definition on stage 3 level is required to produce the required CDR parameter definition. SA5 also noted that the Packet Switched Streaming Service is transparent for GPRS. In addition, SA5 stated it was the correlation of this application service's CDR to PS CDR should be possible.

Further review will be provided and, as necessary, questions for clarification may be forthcoming in particular as it relates to solution for online charging.

SA5 notes that an architectural model from SA2 is needed in order to determine what network elements would be involved in the collection and delivery of the charging information. Further, SA5 would like to be advised of the timeframe in which architectural information will be made available.

**2. Actions:****To SA1 group**

**ACTION:** SA5 requests that SA1 assist, as necessary, with provision of any other requirements that will enable SA5 to complete their work in support of Packet Switched Streaming charging.

**3. Date of Next SA5 Meetings:**

Meeting	Date	Location	Host
SA5#26	25 Feb - 1 Mar 2002 (T1M1/TMF)	Miami, FL / USA	NA Friends
SA5#27	2-5 Apr 2002	Cork, IRELAND	Motorola
