<b>Source:</b>	<b>Nokia</b>
<b>Title:</b>	<b>Digest AKA status in IETF</b>
<b>Document for:</b>	Information
<b>Agenda:</b>	<b>IMS</b>

---

Currently Digest AKA (ietf-sip-digest-aka-01.txt) is in IETF last call, which will end in the week 20. After it passes IETF last call successfully, it will be sent to the RFC editor. After the RFC editor processes the document, it will receive an RFC number.

The SIP WG chairs commented during SIP interim meeting in week 19 that the work is mature to proceed as described above.
