1. Overall Description:

SA5 would like to thank the OMA Requirements group for both the LS "Response to 3GPP TSG-SA5 LS on User Equipment Management" (OMA-REQ-2003-0130-3GPP-S5-LS) and the Device Management Requirements document (S5-032128, V1.0 Draft Version 2003-02-11).

SA5 is glad that the OMA Requirements Group supports the co-ordination of the Device management (in OMA) and UEM (in 3GPP) activities.

SA5 will further analyse OMA's Device Management Requirements document, compare it with 3GPP SA5's Rel-5 TR 32.802 and Rel-6 draft TS 32.150, and will supply any feedback to the OMA Requirements group.

SA5 (in co-operation with SA3, T2, T3) will also review the 3GPP SA5-owned Building-Block-level Work Item Description "OAM-UEM" (SP-020608) in the light of OMA's Device Management Requirements document.

2. Actions:

This LS is for information.
