ITU-T SG 13 is developing two draft Recommendations related to policy-based NGN charging, accounting and control: Y.2233Rev.1 and Y.2111Rev.1Amd. The former is from Q.3/13 and the latter is from Q.4/13, but they are also the results of collaboration efforts between the two Questions.

At the January 2010 NGN-GSI event it was confirmed the intention to request consent of both attached documents at next SG 13 meeting, 19-30 April 2010, Geneva.

Therefore, we invite you to review our latest version of both draft Recommendations and welcome your comments.
