1. Overall Description:

SA1 would like to thank T3 for their LS in S1-030318 on (U)SIM Toolkit originated emergency calls. After some discussion SA1 concluded that they had no requirement for (U)SIM Toolkit to originate emergency calls. They also had no requirement to prevent (U)SIM Toolkit from originating emergency calls. Hence, SA1 will not be making any changes to 22.038. T3 asked SA1 to indicate what should happen if SA1 did not add requirements to 22.038. After some discussion, SA1 agreed that there was no need for stage 3 requirements to support (U)SIM Toolkit origination of emergency calls and so would ask that T3 remove these from their stage 3 from Release 6.

2. Actions:

To T3 group.

ACTION: SA1 asks T3 to remove the support for (U)SIM Toolkit origination of emergency calls from their specifications for stage 3 from Release 6 onwards.
