

Fraunhofer's Perspective on 5G

Thomas Haustein, Lars Thiele, Leszek Raschkowski, Martin Kurras, Thomas Wirth
Thomas Schierl, Cornelius Hellge, Tatiana Efimushkina, Yago Sanchez, Thomas Heyn

Fraunhofer Heinrich Hertz Institute, Berlin
Fraunhofer IIS, Erlangen
Germany

5G Research Contributions

Radio Propagation:

Channel
Measurements &
Modelling

mmWave
Communications:

Sub-10 GHz,
28, 60, 70, 80 GHz

Massive MIMO:

M-MIMO with up to
32, 64, 128, ...
Antennas

Industrial Wireless:

Ultra Low Delay
and Reliable
Communications

Radio Propagation

- Quasi-Deterministic Channel Model
- Virtual Field Trials
- 3D Propagation & Polarization
- Massive MIMO Modelling
- 0.5 – 6 GHz, Extensions above 6 GHz

www.quadriga-channel-model.de

Multi-Bounce & Spherical Wave Modelling

Antenna Models and Mutual Coupling

mmWave Spectrum

- Channel Measurements & Modelling
- Waveform Design & System Evaluation
- Antenna Design for Beamforming Antenna Arrays
- Xhaul – Backhaul, Fronthaul & Access

10 GHz

60 GHz

Simultaneous mmWave Measurement Campaigns

Beamforming with 8 Columns

Active Antenna Array,
8x8, 60 GHz

Massive MIMO

- Beamforming Concepts
 - Multi-user, multi-node coordination, localization
- Modelling & System Level Simulations
- SDR Prototyping –
 - 70 MHz – 6 GHz, 56 MHz bandwidth
 - 8TRx cascadable, 40 Gbps interfaces
- Measurements & Trials

8 TRx SDR

128 Antenna
Cylinder

128 Antenna Cube

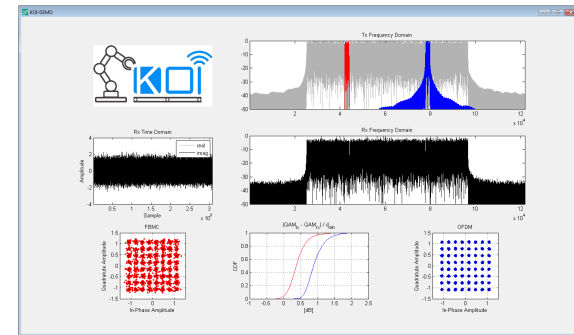

Massive MIMO Scenario

Industrial Wireless

- D2D, MTC
 - Use case: wireless factory automation
- PHY / MAC – Air Interface Design
 - Ultra low end-to-end delay $< 1\text{ms}$
 - High reliability: PER of up to 10^{-9}
 - Waveform design, resource management
- Channel measurements & parameterization

www.koi-projekt.de

Measurement Setup:

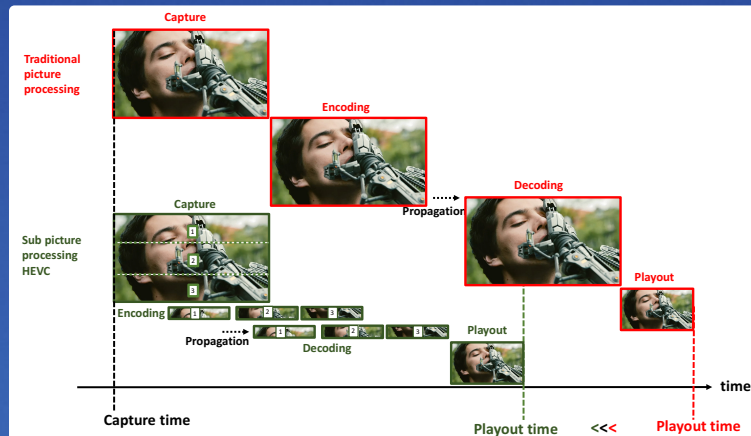

- Multipath Detection
- Power Delay Profile Statistics

Robot-2-Robot Communications

Ultra Low Delay Video

- Applications
 - Industrial wireless
 - Collaborative autonomous cars
- End-to-End Delay < 1 ms
- Enabled by New Video Codec H.265
 - Sub-picture processing
- Cross-Layer Design to enable QoS with Dynamic Bit Stream Adaption to PHY

open5Gaccess
Berlin / Germany

5G –Access, -Core & Xhaul Technology to be tested in one Place

5G Berlin contributes in the global research arena being a place to have 5G related researchers join their effort, interact across disciplinary borders and test latest technologies, system components and applications in a real world setup.
