**VOCABULARY OF TERMS FOR IMT-2000**

ITU-R Working Party 8F, responsible for the development of IMT-2000 and beyond, has formed an Ad hoc Group for Vocabulary which will revise Recommendation ITU-R M.1224 "Vocabulary of terms for International Mobile Telecommunications-2000 (IMT-2000) (Question ITU-R 39/8)"

This Recommendation was established over 4 years ago.

In this rapidly changing field of study, it is necessary to revise this Recommendation and ITU-R Working Party 8F would like to see support from other important bodies which deal with the development of IMT-2000 and beyond.

WP 8F believes that it is very important for the further development of 3<sup>rd</sup> generation mobile systems to have common understandings on vocabulary, including terms that apply to the global core specification.

For this reason Working Party 8F kindly invites you to send definitions, acronyms and abbreviations used by your organization for incorporation in the revised Recommendation ITU-R M.1224.
