3GPP/PCG#8 Meeting
New Orleans, United States
25 April 2002

3GPP/PCG#8(02)03
7 April 2002
page 1 of 2

Source: **Secretary**

Title: **Actions Status List**

Agenda item: 3.1

Document for:

Decision	
Discussion	**X**
Information	

PCG#8 should discuss the status of the actions given below and record whether each action is still ongoing or has been discharged.

Number	Responsible	Action
A-PCG7/1 Discharged	Mr Leite (IMT 2000 Project Manager)	To ensure that ITU-T SG2 take appropriate action to update the Recommendations containing the allocation of Mobile Country Codes.
Comments:		*A new list of MCCs has been published as an annex to ITU Operational Bulletin No. 741 of 1 June 2001 (see http://www.itu.int/itudoc/itu-t/ob-lists/icc/e212_685.html). The growing number of mobile networks could justify the ITU maintaining a list of MNC; for this purpose, it would be necessary to trigger appropriate actions in ITU-T SG 2 (a proposal in this sense has been made during the Q.1/2 meeting (Geneva, 4-8.2.02) - final decision can only be taken by the forthcoming SG2 meeting (Geneva, 7-17.5.02).*
A-PCG7/2 Discharged	TSG SA Chairman	To consider the results of the 3GPP future evolution workshop being held in Helsinki, October 2001, and to report the results to the next PCG meeting in the form a work programme update.
Comments:		*The workshop results are presented as proposed Features to be included in Release 5 and Release 6. Details of these Features can be found in PCG8(02)14.*
A-PCG7/3 Discharged	Secretary	To ensure that the 3GPP web site is updated to show that liaison authorisation with external bodies is valid in all cases for all TSGs.
Comments:		*Web site has been updated*
A-PCG7/4 Discharged	Mr Davidson	To enquire at the next ICAAN meeting on the process used for the allocation of codepoints in order to establish why the process appears to take a long time.
Comments:		*The matter was raised by Mr Davidson with ICAAN and IANA and action has been taken by them to speed up the allocation process.*
A-PCG7/5 Discharged	ETSI	To raise the problem associated with the IANA allocation of codepoints with the PSO.
Comments:		*See 7/4 above.*

A-PCG7/6 Discharged	All Organizational Partners	To write to IANA concerning the time delay in the allocation of codepoints using the text prepared during PCG#7 as a basis [**3GPP/PCG#7(01)22**].
Comments:	The text given in PCG7(01)22 was used by Mr Davidson in his discussions with IANA. After this discussion it was not deemed necessary for SDOs to send any further communication.	
A-PCG7/7 Ongoing	All Organizational Partners	To encourage their Individual Members to send resources to IETF in order to complete those RFCs reference by 3GPP within Release 5.
Comments:		
A-PCG7/8 Discharged	Secretary	To ensure that future PCG Agendas include an item for the approval of the 3GPP work programme.
Comments:	*Work Programme approval is on the Agenda for PCG#8 (see PCG8(02)14).*	
A-PCG7/9 Discharged	Working Procedures Ad Hoc Group	To ensure that draft revisions to the Working Procedures be given a wide circulation before being presented to the PCG for final approval
Comments:	*Draft revised Working Procedures were sent to the PCG list, TSG leaders list, and to MCC on 4 February 2002, with an invitation to provide comments. The comments received were resolved during a meeting of the Working Procedures Group held on 8 March. The draft for approval is presented as PCG8(02)13.*	
A-PCG7/10 Discharged	TSG RAN Chairman	To present a proposal (in the name of ETSI, but on behalf of all Organizational Partners), to the ITU-R SG8 WP8/F meeting, that the deadline for the provision of update material should be extended until end May 2002.
Comments:	*TSG RAN Chairman presented the proposal to WP8/F and this was accepted.*	
A-PCG7/11 Discharged	Secretary	To add presentation of Portal Study results to the Agenda of PCG#8.
Comments:	*Portal Study is included on the PCG8 Agenda.*	
A-PCG7/12 Ongoing	TSG Chairmen	To request their WG Chairman to exercise good judgement in making decisions, taking into account the travel restrictions currently being imposed by some companies.
