12  
13 **Subject: S102 Code Point**  
14

15 Dear Peter,

16 We are aware that CT4 is progressing the stage 3 work on the S102 interface, and has found a need to allocate a  
17 code point allowing the E-UTRAN to notify the cdma2000 1x IWS that the E-UTRAN S102 endpoint (the MME)  
18 has been relocated. TSG-A wishes to inform CT4 that TSG-A has allocated the next available code point, 0x0B  
19 "Redirection", for event notification over A21 (S102 in your work).  
20

21 TSG-A looks forward to a successful completion of the release 8 work on E-UTRAN – eHRPD interworking.  
22  
23

24 Sincerely,

25 George Turnipseed  
26 Chair, 3GPP2 TSG-A  
27

28 cc: Mr. Wan Yi  
29 Chair, 3GPP2 Steering Committee
