

3GPP TSG CN Plenary Meeting #13
Beijing, China, 19th-21st September 2001

NP-010471

Source: CN5 (OSA)
Title: CRs 29.198-08 Rel-4
Agenda item: 8.5
Document for: Approval

| Doc-1st-Level | Doc-2nd-Level | Spec | CR | Rev | Phase | Subject | Cat | Version-Current | Version-New | Meeting-2nd-Level | Workitem |
|---------------|---------------|-----------|-----|-----|-------|-----------------------------|-----|-----------------|-------------|-------------------|----------|
| NP-010471 | N5-010681 | 29.198-08 | 002 | | Rel-4 | Changing references to JAIN | F | 4.1.0 | 4.2.0 | N5-12 | OSA1 |

CHANGE REQUEST

⌘ **29.198-08 CR 002** ⌘ ev **-** ⌘ Current version: **4.1.0** ⌘

For **HELP** on using this form, see bottom of this page or look at the pop-up text over the ⌘ symbols.

Proposed change affects: ⌘ (U)SIM ME/UE Radio Access Network Core Network

| Title: | ⌘ Changing references to JAIN | | |
| Source: | ⌘ CN5 | | |
| Work item code: | ⌘ OSA1 | Date: | ⌘ 30/08/2001 |
| Category: | ⌘ F | Release: | ⌘ REL-4 |
| | <i>Use one of the following categories:</i> F (correction) A (corresponds to a correction in an earlier release) B (addition of feature), C (functional modification of feature) D (editorial modification) Detailed explanations of the above categories can be found in 3GPP TR 21.900 . | | <i>Use one of the following releases:</i> 2 (GSM Phase 2) R96 (Release 1996) R97 (Release 1997) R98 (Release 1998) R99 (Release 1999) REL-4 (Release 4) REL-5 (Release 5) |

| | |
|--------------------------------------|-----------------------------------|
| Reason for change: | ⌘ Incorrect references to JAIN. |
| Summary of change: | ⌘ Correct references to the JAIN. |
| Consequences if not approved: | ⌘ Potential legal ramifications |

| | | | |
|------------------------------|--|---|------------------------------------|
| Clauses affected: | ⌘ 1 | | |
| Other specs affected: | ⌘ <input checked="" type="checkbox"/> Other core specifications <input type="checkbox"/> Test specifications <input type="checkbox"/> O&M Specifications | ⌘ | All other parts of TS 29.198 Rel-4 |
| Other comments: | ⌘ | | |

How to create CRs using this form:

Comprehensive information and tips about how to create CRs can be found at: http://www.3gpp.org/3G_Specs/CRs.htm. Below is a brief summary:

- 1) Fill out the above form. The symbols above marked ⌘ contain pop-up help information about the field that they are closest to.
- 2) Obtain the latest version for the release of the specification to which the change is proposed. Use the MS Word "revision marks" feature (also known as "track changes") when making the changes. All 3GPP specifications can be downloaded from the 3GPP server under [ftp://ftp.3gpp.org/specs/](http://ftp.3gpp.org/specs/) For the latest version, look for the directory name with the latest date e.g. 2001-03 contains the specifications resulting from the March 2001 TSG meetings.
- 3) With "track changes" disabled, paste the entire CR form (use CTRL-A to select it) into the specification just in front of the clause containing the first piece of changed text. Delete those parts of the specification which are not relevant to the change request.

1 Scope

The present document is Part 8 of the Stage 3 specification for an Application Programming Interface (API) for Open Service Access (OSA).

The OSA specifications define an architecture that enables application developers to make use of network functionality through an open standardised interface, i.e. the OSA APIs. The concepts and the functional architecture for the OSA are contained in 3GPP TS 23.127 [3]. The requirements for OSA are contained in 3GPP TS 22.127 [2].

The present document specifies the Data Session Control Service Capability Feature (SCF) aspects of the interface. All aspects of the Data Session Control SCF are defined here, these being:

- Sequence Diagrams
- Class Diagrams
- Interface specification plus detailed method descriptions
- State Transition diagrams
- Data definitions
- IDL Description of the interfaces

The process by which this task is accomplished is through the use of object modelling techniques described by the Unified Modelling Language (UML).

This specification has been defined jointly between 3GPP TSG CN WG5, ETSI SPAN 12 and the Parlay Consortium, in co-operation with [a number of JAIN™ Community member companies](#)~~the JAIN consortium~~.
