1. Overall Description:

TSG GERAN2 thanks CN4 on the LS N4-021098 on Shared Networks. TSG GERAN2 have investigated the feasibility and appropriateness of the different solutions for transporting the SNA Access Information to the target RNC for CS handover between GSM and UMTS. TSG GERAN2 has no strong opinion on either solution, and has therefore accepted the BSSMAP solution preferred by CN4. The attached CR to 48.008 (GP-022321) incorporates the BSSMAP based solution in BSSAP. The CR has been approved in TSG GERAN.

2. Actions

To CN, CN4:

No actions.

3. Date of Next GERAN2 Meetings:

GERAN2#11bis	7-11th Oct	Atlanta, USA
GERAN, GERAN2#12	18-22nd Nov	Sophia Antipolis, France
