NP-020416

Source: Lucent Technologies (Rapporteur)
Title: Open issues for TS29.208, Version 5.0.0
Agenda item: 6.3.2
Document for: INFORMATION

3GPP TSG-CN WG3#24

N3-020737

Helsinki, Finland. 29th July - 2nd Aug. 2002

(Revision of N3-020571, 704, and 736)

3GPP TSG CN Plenary Meeting #16

NP-020306

5th - 7th June 2002. Marco Island, USA.

Introduction:

The present document lists the open issues for TS29.208, Version [52.0.0](#) [after CN3 #24](#).

Open issues:

- Resource reservation flows with end-to-end RSVP interactions are missing (section 5.2).
→ **[CLOSED]** by TS29.208 CR008r1 (N3-020711).
- [The mapping of authorized data rate into UMTS QoS bit rate parameter has to be decided \(section 7, related to an open issue for TS29.207\).](#)
→ **[CLOSED]** by TS29.208 CR006r1 (N3-020674).
- [Support for forking shall be considered. \(new requirement added to TS23.228 by a CR agreed at SA#16\)](#)
→ **[CLOSED]** by TS29.208 CR007r1 (N3-020720).
- [Further clarification is required if the SDP b=AS:<bandwidth> parameter includes the bandwidth for RTCP.](#)
→ **[OPEN]** Checking with SA4 via an LS.
