**Agenda item: 8.3**  
**Document for: INFORMATION**

---

**The following are the outstanding work/issues for CAMEL/IMS draft specifications 23.278 and 29.278:**

- The procedure for handling SCP requests for play tone and announcements needs to be added.**
- Need to specify handling of DP destination number trigger criteria for SIP URLs. Currently it is assumed that DP destination number trigger criteria is only for ISDN numbers.**
- Need to remove unused parameters from the Detailed operation procedures section of 29.278.**
