-----------------	---	---

ITU-T SSG thanks 3GPP for the input to our referencing Recommendations of Release 1999 and Release 4 and hopes that we can continue with a good co-operation. We have updated our work plan and have started with referencing of Release 5. Our intention is that we will base our referencing on the different SDOs' specifications. The SSG would appreciate if these SDOs' specifications refer to the same version of the 3GPP specifications. Our goal is to have the referencing Recommendation for Release 5 ready in October 2003, based on a draft of this Recommendation planned for May 2003. To fulfil this goal it is necessary that we receive information from you as early as possible and latest end of September 2003.

For further information please contact Ilkka Hyvärinen, Rapporteur of Q.3/SSG
