

Presentation of Specification to TSG or WG

Presentation to: TSG CN Meeting #10

Document for presentation: TS 23.009, Version 3.4.0

Presented for: Approval

Abstract of document:

It contains a detailed description of the handover procedures to be used in PLMNs. The purpose of the handover procedures, as described in the present document, are to ensure that the connection to the Mobile Station (MS) or User Equipment (UE) is maintained as it moves from one cell or radio network to another.

Changes since last presentation to TSG Meeting #9:

(The following changes are agreed and will be incorporated in the next version)

- GSM to UMTS Handover: Directed Retry, MAP parameter Target Cell ID, Location Reporting in 3G MSC B
 - UMTS to GSM Handover: Directed Retry
 - Subsequent Handover: covering missing scenarios, and some minor corrections
 - Reference clean-up
-

Outstanding Issues:

None.

Contentious Issues:

None.
