Title: Proposal for TSG-CT Scheduling of Meeting times
Agenda item: 4.4
Document for: DISCUSSION / APPROVAL

1. Overall Description:

TSG-CT has now commenced its work and its meetings.

Members participating in TSG-CT meetings have rather diverse interests. These can be grouped into two distinct sets, the Core Network interests of the former TSG-CN participants, and Terminals interests of the former TSG-T participants.

The planning of the TSG-CT meetings should be considered with a view to optimising the participants' efficient use of their time, in view of the two diverse interest groups

2. Proposal :

It is proposed that all the discussion items related to Terminals and all those related to the Core Network, be grouped together into two separate discussion Packages, each Package time-scheduled for sequential discussion, and each Package scheduled at a consistent time in the TSG-CT meeting duration.

One example of how this could be achieved, would be that all items related to Terminals (LS's, WG Reports and processing of outputs, Issues, etc.) in the Terminals Package could be scheduled on the TSG-CT Meeting Agenda for Thursdays, starting at the meeting opening time, at all TSG-CT meetings, consistently. Knowledge of this consistent, unvarying scheduling practice would enable the Core Network participants to optimize their time for other necessary tasks during this Terminal discussion if they so wished. At the conclusion of the Terminals Package discussion, the CT discussion would revert to the Core Networks Package, tentatively planned to re-start after the lunch breaks on Thursdays, but re-starting during the early part of Thursday afternoons if required.
