1. Overall Description:

SA1 thanks TSG-CT (TSG-CN) for their LS and notes the approval of the CR to 24.008 to address the scenario where there is no preferred network set in the PLMN list and Reject Cause #14 is encountered.

CT1 had previously notified SA1 they intended to introduce such a solution in their LS and SA1 confirms that this change to 24.008 satisfies our requirements and we do not believe that any changes to the Stage 1 specification (TS22.011) are necessary.

2. Actions:

None

3. Date of Next TSG-SA1 Meetings:

SA1#29 11-15 July 2005 Portugal
