Subject: Nomination of candidate for the 3GPP TSG CT WG1 Vice Chairman Position

Dear Ms. Kooistra and Ms. Jurisic

On behalf of Samsung Electronics I am pleased to nominate Mr Chen-Ho Chin as a candidate for vice-chair of 3GPP TSG CT WG1. In this way we are very happy to provide our continued commitment to the success of the standardisation activities of 3GPP.

Chen-Ho has over 25 years working experience in telecommunications. He graduated with honours from Liverpool University, UK in 1979. After over 10 years working on fixed telecommunications systems, Chen-Ho moved to the GSM and mobile world in 1990. His work in mobile telecommunications since then has covered Standardisation, System Engineering, Design and Development, Integration and Testing. He has been working in UMTS since 2000. In all these time, areas of work and the different systems, Chen-Ho has work on both the terminals side and the network side.

With his experience, wide ranging telecommunications background and knowledge of the various mobile and fixed telecommunications systems and standards, Chen-Ho can contribute richly to the continuing standardisation activities of 3GPP.

Chen-Ho will represent the Individual Member "Samsung Electronics" and project partner "ETSI".

Yours Sincerely,

Andrew Bell

Senior Manager, Samsung Electronics Research Institute
