Attachments: CRs

1. Overall Description:

RAN has agreed to include two new IEs for future use in the RRC CONNECTION REQUEST and INTER RAT HANDOVER INFO messages.

The CRs says:

8.1.3.3 RRC CONNECTION REQUEST message contents to set

....

The UE shall not include the IE "UE Specific Behaviour Information 1 idle".

8.1.16.3 INTER RAT HANDOVER INFO message contents to set

....

1> The UE shall not include the IE "UE Specific Behaviour Information 1 interRAT".

The approval of these CRs were conditional on the fact that the procedure i.e. the non sending of these IEs in the current protocol, would be tested in the T1 specifications.

TSG RAN would kindly request the inclusion of tests on the expected UE behaviour. It is RAN's opinion that the test(s) should be part of a high priority test case(s).

2. Actions:

To T,T1 group.

ACTION: Confirm to TSG RAN that the test will be defined.

3. Date of Next RAN Meetings:
