Progress Report since the last TSG (for all involved WGs):

Rapporteur's proposal for skeleton of TR 25.8xx was submitted to RAN3#35 but not treated due to cancellation of RAN3#35.

The proposed skeleton for the TR was re-submitted to RAN3#36 where it was agreed. Also submitted were three additional documents covering the background to NACC (R3-030683), some possible areas for study in the signalling area (R3-030685), and a document on adapting the RIM procedures for the UTRAN (R3-030686).

All the documents were agreed, and the areas for study from R3-030685 were added to section 6 of the TR.
