

**Agenda Item:** 16

**Source:** TSG RAN WG2

**Title:** **Answer to Liaison on Physical Layer Baseline Implementation Capabilities**

**To:** **TSG T WG2 and TSG RAN WG1**

---

RAN WG2 would like to thank TSG RAN WG1 for the Liaison on Physical Layer Baseline Implementation Capabilities where TSG RAN WG1 pointed out an inconsistency between TSG RAN WG1 and TSG RAN WG2 answers on baseline implementation capabilities.

TSG RAN WG2 would like to inform TSG RAN WG1 and TSG T WG2 that TSG RAN WG2 has reconsidered its earlier assumption that dedicated channels are part of baseline implementation capabilities to exclude the dedicated channels from the base line capabilities.
