

Las Vegas, U.S.A, February 27th – March 2nd 2001

Agenda Item: AH21
Source: CWTS/CATT
To: TSG RAN WG1
Title: USCH/DSCH
Document for: Discussion and Approval

1. Summary

There is no difference in the concept of the shared channels between 1.28 Mcps TDD and 3.84Mcps TDD.

2. Proposal

It's proposed to discuss and include the following text proposal into the section 8.2.5 'The Uplink Shared Channel (USCH)' and 8.2.6 'The Downlink Shared Channel' of the CR for TS25.221.

8.2.5 The Uplink Shared Channel (USCH)

The uplink shared channel is mapped onto one or several PUSCH, see subclause 6.3.6 'Physical Uplink Shared Channel (PUSCH)'

8.2.6 The Downlink Shared Channel (DSCH)

The downlink shared channel is mapped onto one or several PDSCH, see subclause 6.3.7 'Physical Downlink Shared Channel (PDSCH)'
