Sophia Antipolis, 16 to 20 August 1999**

TSGR2#6(99)731

TSG-RAN Working Group 1 meeting #6
Espoo, 13th to 16th July 1999

TSGR1#6(99)a22

Source: TSG RAN WG1
To: TSG RAN WG2
Title: Reply to LS on RACH prioritisation

WG1 thanks WG2 for its liaison statement (TSGR1#4(99)481) on the partitioning and prioritisation of RACH via Access Service Classes.

At its meeting #6, in Espoo, WG1 agreed on the concept of RACH partitioning and prioritisation via Access Service Classes for UTRA FDD. Each Access Service Class maps to a group of RACH preamble signatures.

WG1 aligned TS 25.214 with respect to the concept of Access Service Classes.
