

TSG-RAN Meeting #11
Palm Springs, California, 13th to 19th March 2001

TSGR#11(01)0277

Agenda Item: 10 (Project Management)
Source: TSG RAN WG1 Chairman
Title: Creation of Release 4 versions of the TSG RAN WG1 specifications
Document for: Decision

Introduction

After the work on Rel'4 work items which have been completed by TSG RAN WG1, the following TSG RAN specifications have no Rel'4 CRs implemented on them:

TS 25.211 Physical channel and mapping of the transport channels onto physical channels (FDD)

TS 25.212 Multiplexing and channel coding (FDD)

TS 25.213 Spreading & modulation (FDD)

It is quite obvious that these specifications are valid for Rel'4 as well and thus versions 4.0.0. should be created by the MCC.
