

Title: Update reminder for the OPs on the compliance with ITU-R procedures as it relates to the next meeting of ITU-R WP 8F (Tokyo, 10-16 October 2001)

Source: TSG RAN

AI: 8.5

Document for: Approval

Following document RP-010424 ('Reminder for the OPs on the compliance with ITU-R procedures & on the transposition of 3GPP Specs') approved at RAN#12 and already circulated to OPs, this contribution recall the actions that OPs have to take **by 3 October 2001** also taking into account the recent discussion on the procedures for the development of the Revision of Rec. ITU-R M.1457.

- *The ITU must receive letters of conveyance that provide for full disclosure of intent by all individual stakeholder SDOs to any proposed change or submission and an understanding of the stakeholder SDOs positions on the transposition of approved ITU specifications regardless of the source of the change or submission, be it an individual SDO or some combination of the SDOs. **The template for this conveyance letter is attached to this document as Annex 1.** See Annex B of RP-010424 for further details.*
- *Preliminary update of Sections 5.1.2 and 5.3.2 (Specifications titles, synopsis and empty tables) is required by ITU-R WP 8F. This will be provided as input contribution developed in RAN and submitted under individual members as usual. Taking into account that the conveyance letters above contain the complete list of material, the SDO submission of templates with the indication of doc numbers, as was originally indicated in RP-010424, is currently considered redundant (based on recent discussion it was clarified that also the indication of the doc numbers in the tables is not required at this stage: empty tables are enough).*
*Rather, it is recommended to OPs to submit to the IMT-2000 Project Manager by 3 October 2001 a declaration of support document to the proposed update of IMT-2000 CDMA DS and/or IMT-2000 CDMA TDD approved by TSG RAN and submitted to ITU under individual members, with particular reference to the declaration of consistency between Sections 5.1.1, 5.1.2, and the GCS, and/or between Sections 5.3.1, 5.3.2, and the GCS in the document to be submitted by 3GPP members. **The template for this declaration is attached to this document as Annex 3.***

OPs are also reminded that a joint decision on which version of the 3GPP Technical Specifications will be considered for transposition purposes has to be taken.
