**1. Overall Description:**

During its meeting R2#33 in Sophia Antipolis, RAN WG2 received a contribution (R2-022837), highlighting a number of RAB combinations considered by many companies as not providing additional test coverage beyond that provided by other RAB combinations already captured in section 6.10.2 of TS34.108v3.9.0. It is recognised that all these RAB combinations are part of the LOW priority test case package as identified by the GCF. Based on this highlighted list, RAN 2 agreed the following RAB combinations that it felt could be considered as providing no additional test coverage benefit, and could be considered as candidates for removal from TS34.108.

RAN WG2 would like to ask TSG RAN and TSG T to consider the enclosed list and determine whether there is any benefit in removing these RAB combinations from TS34.108. These RAB combinations could be either deleted completely or retained in the new RAN WG2 report TR25.993 on RAB/RB examples, depending on the recommendation of TSG RAN and TSG T.

RAN WG2 can co-ordinate with T WG1, depending on the decision of TSG RAN and TSG T, to provide any necessary CRs to TS34.108 and TR25.993 in time for Plenary #19.

**2. Actions:**

**To TSG RAN and TSG T**

**ACTION:**

1. RAN WG2 asks TSG RAN and TSG T to consider this list and decide on whether there is any benefit to remove these RAB combinations from TS34.108.
2. RAN WG2 also ask TSG RAN and TSG T to consider whether any agreed RAB combinations to be removed from TS34.108 should be captured in the new TR25.993 or deleted completely.
3. RAN WG2 ask that T WG1 and RAN WG2 be informed of TSG RAN and TSG T decisions regarding these actions, in order that they can produce the necessary CRs for approval during Plenary #19 March 2003.

**3. Date of Next RAN WG2 Meetings:**
