1. Overall Description:

RAN2 thanks SA3 for their LS (S3-020584, R2-023035) on Group release security solution. From this LS RAN2 understood that the discussion is still ongoing in SA3.

In order to finalise the issue RAN2 have agreed 2 versions of a technically correct CR. One version that includes a security solution for group release and one version that do not include a security solution for group release.

Both these CRs will be brought to the TSG-RAN#18 (3rd-6th December). Based on the decision in SA3 on the need for a security solution for group release, one of these CRs will be approved for REL-5.

2. Actions:

To SA3 group.

ACTION: To conclude if a security solution is deemed necessary for group release and to communicate this in a LS to TSG-RAN.

3. Date of Next RAN2 Meetings:
