TSG-RAN Working Group 1 meeting No. 17   ***TSGR1-00-1487***
November 21-24, Stockholm, Sweden

Agenda item: 11

Source: **TSG RAN WG1**

To: **TSG RAN WG3**

Title: LS from WG1 to WG3, reply to LS on Radio Link Initialisation

Document for: Decision

Contact person: peter.chambers@roke.co.uk

RAN1 thanks RAN3 for the "LS from WG3 to WG1, answer to LS on Radio Link Initialisation" (R1-00-1336 = R3-002860) presented at RAN1#17.

RAN1 thanks RAN3 for the explanation of the functionality of the TPC commands on a radio link in the first radio link set which "drifts" commanded UE transmit power slowly upwards.

RAN1 notes the wish of RAN3 to specify an open Iub that will require some specification of NodeB behaviour at an L1 level.

RAN1 has discussed an appropriate description of the TPC command behaviour at RL initialisation at RAN1#17 and has produced a CR(135r1) to TS 25.214 that will introduce text suitable for reference from TS 25.433.
