Candidate Chairman for 3GPP Services and System Aspects TSG

Position sought: Chairman of 3GPP Services and System Aspects TSG
Vice Chairman if unsuccessful

Name: Fred Harrison

ETSI member: BT

Address: BT Networks and Systems
PP A3003, Westside,
London Road,
Hemel Hempstead,
Herts. HP3 9YF
UK

Tel: +44 1442 296717
Email: fred.harrison@bt.com

Current Position: UMTS Standards Manager

Experience:

Fred Harrison (age 42) is UMTS Standards Manager in BT's Technology Department. He is responsible for the direction for UMTS standards, including directing BT's contributions to ETSI/SMG, EP UMTS and 3GPP.

Fred recently took up this position last year, having spent the previous nine years in Cellnet, one of the UK cellular operators, managing the design and planning of Cellnet's radio network. This period included taking responsibility for the integration testing of the new GSM network and acting as overall network design authority. For a short time he represented Cellnet in ETSI/SMG2.

Previous to his work in Cellnet, Fred worked in BT on the development of fixed radio systems.

He has a degree in Electronic Engineering from Southampton University, UK and is a member of the Institution of Electrical Engineers.

He is currently convenor for the 3GPP Services and System Aspects TSG
