

3GPP

What we need

Common **W**orking **M**ethods

for

TSG's

and **WG's**

- same documentstructure / numbering-scheme
for all TSG's and WG
- simple directory-scheme
for temporary and final documents
at **meetings** as well as
on the common **server**
- document- / archive- tool
(document versions handling, also including a control mechanism if more
rapporteurs are working on the same document)

3GPP

What we also need

UMTS
Universal Mobile
Telecommunications System

Coordination of Work

between

all TSG's

and their WG's

3GPP

That means

- **KNOW HOW TRANSFER**
(*what happens in the other groups*)
between the TSG's and WG's

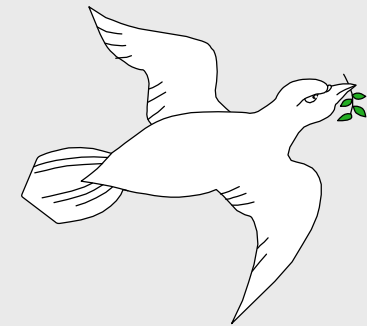

done by

- **Professional Experts**
commuting between the TSG's and WG's

therefore a

- **Coordination Team**

Permanent Nucleus

3GPP

LOOK at

Tdoc SP-99048

and
settle it
