

Technical Specification Group Services and System Aspects

TSGS#2(99)085

Meeting #2, Fort Lauderdale, 2-4 March 1999

ETSI TC SMG#28 Plenary Meeting
Milan, Italy
Feb. 8 to 12, 1999

Tdoc SMG P-99-311

From: ETSI SMG

To: 3GPP TSG SA

Cc: 3GPP TSG SA WG2

Subject: Liaison Statement on work transfer from ETSI STC SMG12 to 3GPP TSG SA

ETSI SMG has endorsed the transfer of the following documents to TSG SA:

- TS UMTS 23.01 v.3.0.0 entitled "General UMTS Architecture"
- TS UMTS 23.10 v.3.0.0 entitled "Access Stratum: Services and Functions"
- TR UMTS 23.20 v.1.5.0 entitled "Evolution of the GSM platform towards UMTS"
- TS UMTS 23.30 v.1.0.0 entitled "Iu Principles" (For this specification, some review from SMG may be required because of the impacts on GSM/UMTS handovers at least)

The two last documents may be further refined by the result from an ad-hoc group to be held on Feb. 22-23 on Transcoder Location and protocol stacks over the Iu. In such a case, the second digit of the version number will be increased by 1.

The following Work Items are also transferred to TSG SA:

- IP in IP tunneling in GPRS backbone for UMTS, phase 1
- UMTS Open Service Architecture
- Investigation of a UMTS CN Based on ATM
- Combined GSM and Mobile IP Handling in UMTS IP CN, phase 1 and 2
- End-To-End Quality of Service Management

Moreover, the WI entitled "Support of real time services in the Packet domain of GSM/GPRS/UMTS R99" will be considered to have a shared responsibility between SMG and TSG SA.
