Subject: 3GPP handling of the OHG Proposal

Dear Gentlemen:

T1P1 has reviewed the input documents from 3GPP TSGs RAN and SA to the most recent PCG meeting regarding the handling of the OHG proposals. T1P1 supports the actions taken and proposed by those documents regarding the development of specifications for a single Direct Sequence and a single TDD mode of a global IMT-2000 CDMA standard in 3GPP. T1P1 also supports the development of a single Multi-carrier mode for a global IMT-2000 standard in 3GPP2. T1P1 urges the appropriate ANSI-41 experts from 3GPP2, UWCC and TR45 to participate in the August "Hooks and Extensions" workshop.

T1P1 notes that 3GPP2 has scheduled a workshop for investigation of applying the Multi-carrier mode of the global IMT-2000 CDMA standard to GSM-MAP. T1P1 requests that the appropriate GSM-MAP experts participate in the 3GPP2 workshop.

Best regards,
