Technical Specification Group Services and System Aspects   *TSGS#14(01)0702*

Meeting #14, Kyoto, Japan, 17-20 December 2001

Source: **TSG-SA WG4**

Title: CRs to TS 26.233 on Correction of RTSP TEARDOWN protocol flow in Figure 1 (Release 4)

Document for: **Approval**

Agenda Item: **7.4.3**

The following CR, agreed at the TSG-SA WG4 meeting #19, is presented to TSG SA #14 for approval.

Spec	CR	Rev	Phase	Subject	Cat	Vers	WG	Meeting	S4 doc
26.233	001	1	REL-4	Correction of RTSP TEARDOWN protocol flow in Figure 1	F	4.0.0	S4	TSG-SA WG4#19	S4-010690

CR-Form-v4

CHANGE REQUEST

| ⌘ | **26.233** CR **001** | ⌘ | ev | **1** | ⌘ | Current version: | **4.0.0** | ⌘ |

*For **HELP** on using this form, see bottom of this page or look at the pop-up text over the ⌘ symbols.*

Proposed change affects: ⌘ (U)SIM ☐ ME/UE **X** Radio Access Network ☐ Core Network ☐

Title: ⌘	Correction of RTSP TEARDOWN protocol flow in Figure 1	
Source: ⌘	TSG SA WG4	
Work item code: ⌘	PSTREAM	***Date:*** ⌘ 17 December 2001

Category: ⌘ **F**		***Release:*** ⌘ REL-4
	Use one of the following categories: ***F*** *(correction)* ***A*** *(corresponds to a correction in an earlier release)* ***B*** *(addition of feature),* ***C*** *(functional modification of feature)* ***D*** *(editorial modification)* Detailed explanations of the above categories can be found in 3GPP TR 21.900.	*Use one of the following releases:* *2 (GSM Phase 2)* *R96 (Release 1996)* *R97 (Release 1997)* *R98 (Release 1998)* *R99 (Release 1999)* *REL-4 (Release 4)* *REL-5 (Release 5)*

Reason for change: ⌘	In Figure 1, the RTSP protocol flow implies that the RTSP:TEARDOWN request is issued from the server to the client (with client acknowledgement) whereas in the RTSP specification (RFC 2326) this method is actually the other way round (i.e., client to server)
Summary of change: ⌘	Swap round the arrows in line with the convention used for other RTSP requests (i.e., request followed by acknowledgement)
Consequences if not approved: ⌘	It could be misunderstand that the server is able to terminate a streaming session using the RTSP:TEARDOWN method

Clauses affected: ⌘	Figure 1
Other specs affected: ⌘	☐ Other core specifications ⌘ ☐ Test specifications ☐ O&M Specifications
Other comments: ⌘	

How to create CRs using this form:

Comprehensive information and tips about how to create CRs can be found at: http://www.3gpp.org/3G_Specs/CRs.htm. Below is a brief summary:

1) Fill out the above form. The symbols above marked ⌘ contain pop-up help information about the field that they are closest to.

2) Obtain the latest version for the release of the specification to which the change is proposed. Use the MS Word "revision marks" feature (also known as "track changes") when making the changes. All 3GPP specifications can be downloaded from the 3GPP server under ftp://ftp.3gpp.org/specs/ For the latest version, look for the directory name with the latest date e.g. 2001-03 contains the specifications resulting from the March 2001 TSG meetings.

3) With "track changes" disabled, paste the entire CR form (use CTRL-A to select it) into the specification just in front of the clause containing the first piece of changed text. Delete those parts of the specification which are not relevant to the change request.
