Title: **Proposal to withdraw GSM 01.00**
Document for: **approval**
Agenda Item: **8.6**

TR (or possibly TS) 01.00 is entitled "Working Procedures for SMG and PT SMG" and has active versions in Releases 96, 98 and 99. Since neither of those bodies still exists, MCC proposes to withdraw all versions of the document. It is effectively replaced by 3GPP TR 21.900 " Technical Specification Group working methods".

TSG SA is asked to agree to this proposal.
