Title:	**Proposal to promote specs to higher releases**
Document for:	**approval**
Agenda Item:	**8.8 (?)**

It has been noted that some specs are missing from specific Releases. To be valid for a given Release, a spec must exist in the appropriate version. The responsible TSGs are asked to approve the generation of the missing versions. The new versions will be technically identical to the version belonging to the immediately lower Release.

WG	Spec	missing Releases	remarks
G3	11.21	R97	
G3	11.26	R97, R98	
S5	12.03	R96, R97	
S5	12.04	R96, R97	
S5	12.11	R96	
G3	12.21	R97, R98, R99	should also be promoted to Rel-4 and beyond as 44.021.
