1. Overall Description:

T1-SIG would like to thank RAN for the LS on requirement to test non-transmission of newly defined IEs in RRC protocol for Early UE handling.

T1-SIG would like to inform RAN that T1-SIG has agreed to update two representative priority test cases to test that the UE shall not include the newly defined IEs in RRC CONNECTION REQUEST and INTER RAT HANDOVER INFO messages. The current default behaviour of not checking the presence and contents of noncritical extensions shall be left unchanged in all other test cases.

At T1-SIG#27 meeting, test case 8.1.2.1 in 34.123-1 has been updated to test non-inclusion of the newly defined IEs in RRC CONNECTION REQUEST message. T1-SIG has taken an action to update a priority test case to test changes in INTER RAT HANDOVER INFO message.

T1-SIG would also like to advise RAN that the update of the above test cases in 34.123-3 (TTCN Abstract Test Suite) can only be done after upgrade of ASN.1 definition to Dec 02 ASN.1 in 25.331, which is anticipated to be around July 03 time frame.

2. Actions:

None

3. Date of Next T1 Meetings:

T1#19 May 12-16 Korea

RP-020904

TSG-T1 meeting #18 New Orleans, US 3-6 December 2002

Title:	LS on requirement to test non transmission of newly defined IEs in RRC protocol for Early UE handling

Attachments:	CRs	

1. Overall Description:

RAN has agreed to include two new IEs for future handling of Early UE in the RRC CONNECTION REQUEST and INTER RAT HANDOVER INFO messages.

The CRs says:

******	*****

8.1.3.3 RRC CONNECTION REQUEST message contents to set

. . . .

The UE shall not include the IE "UE Specific Behaviour Information 1 idle".

8.1.16.3 INTER RAT HANDOVER INFO message contents to set

. . . .

1> The UE shall not include the IE "UE Specific Behaviour Information 1 interRAT".

The approval of these CRs were conditional on the fact that the procedure i.e. the non sending of these IEs in the current protocol, would be tested in the T1 specifications.

TSG RAN would kindly request the inclusion of tests on the expected UE behaviour. It is RAN's opinion that the test(s) should be part of a high priority test case(s).

2. Actions:

To T,T1 group.

ACTION: Confirm to TSG RAN that the test will be defined.

3. Date of Next RAN Meetings:

Meeting #	Date	Host	Location
Early UE Ad Hoc	29, 30 January 2003	ETSI	Sophia Antipolis, France
19	11 - 14 March 2003	UK Friends of 3GPP	Birmingham, UK
20	03 - 06 June 2003	Nokia	Hämeenlinna, Finland
21	16 - 19 September 2003	Siemens	Berlin, Germany
